

Ballistic Soap - Material Data Safety Sheet

Product Name: Ballistic Soap

Composition:

Water
Propylene glycol
Sodium Stearate
Sodium laureth sulphate Glycerine
Sucrose
Sodium cocoate
Sodium xylene sulphonate
Sodium lauryl sulphate
Stearic acid
Tetrasodium EDTA
Tetrasodium etidronate

Hazardous ingredients:

None.

Hazard Identification:

Not applicable.

This product is not classified as dangerous under CHIP regulations and amendments.

First Aid Measures

Inhalation:

No risk.

Eye contact:

Thoroughly rinse with plenty of clean water.

Ingestion:

Give milk preferably or water to dilute. Do not induce vomiting.

Skin contact:

N/A
If irritation or symptoms persist seek medical advice.

Fire-Fighting Measures

This product itself is not classified as flammable but will decompose producing acrid smoke if exposed to high temperatures.
Breathing apparatus may be required.

Extinguishing media:

Use CO₂ , dry powder or foam type extinguishers, spraying extinguishing media to base of flames.

Accidental Release Measures

Avoid contact with water. Remove product and dispose of in an approved manner.
Observe any local waste disposal regulations.

Handling and Storage

Store in a clean dry area at ambient temperature.

Exposure Controls / Personal Protection

On the basis of information available, this product is not hazardous. Prolonged exposure may in very few cases produce skin sensitivity. Skin should be dried thoroughly after use.

Thermal decomposition temperature:

Approx. 150 deg. C.

Stability/Reactivity

Stable product. Will not promote hazardous reactions.
Will decompose above approximately 150 deg C to produce acrid smoke.

Toxicological Information Inhalation:

N/A

Skin contact:

N/A

Eye contact:

N/A

Ingestion:

Mild gastric irritation.

Ecological Information

This product is essentially non toxic or hazardous. Fully biodegradable.

Aquatic environment – will not promote eutrophication.

Disposal Consideration

Disposal should be in accordance with local, state or national legislation.

Transport Information

Not hazardous according to Transport Regulations.

Regulatory Information

According to Directive 88/379/EEC CHIP regulations and amendments – not classified.
